FY 2023-2026

TRANSPORTATION IMPROVEMENT PROGRAM

Prepared by:

Region 6 Resource Partners 903 East Main St Marshalltown, IA 50158

6/27/22 Approved

RESOLUTION

A RESOLUTION TO APPROVE THE FY 2023-2026 REGION 6 RESOURCE PARTNERS TRANSPORTATION IMPROVEMENTS PROGRAM

WHEREAS the Region 6 Resource Partners has prepared the FY2023-2026 Transportation Improvements Program and received the input of the Region 6 Resource Partners Transportation Committee and IDOT/FHWA/FTA.

NOW, THEREFORE, BE IT RESOLVED BY THE REGION 6 RESOURCE PARTNERS:

| The FY 2023-2026 Transportation Improvements Pr | ogram is hereby approved. |
|---|---------------------------|
| Approved this 27th day of June | , 2022. |
| Jody Anderson Chair | |
| Attest: | |
| Matty Wymore | |

CERTIFICATION OF THE PLANNING PROCESS

Region 6 Resource Partners Commission certifies that the transportation improvement program (TIP) process is carried out in accordance with federal code related to Clean Air Act, Civil Rights Act, and Americans with Disabilities Act, among others.

DISCLAIMER

Region 6 Resource Partners Commission prepared this report with funding from the U.S. Highway Department of Transportation's Federal Highway Administration and Federal Transit Administration, and in part through local matching funds of the Region 6 member governments. These contents are the responsibility of Region 6 Resource Partners Commission. The U.S. government and its agencies assume no liability for the contents of this report or for the use of its contents. Region 6 Resource Partners Commission approved this document on June 27, 2022. Please call 641-752-0717 to obtain permission of use.

INTRODUCTION

Programming is the transition of projects from planning and design to construction. The Region 6 Transportation Improvements Program lists roadway, bridge, public transit, and transportation alternative federal projects over the next four federal fiscal years. The Region 6 Resource Partners Commission area is noted below.

Project priority is given to the FY 2023 annual element of the Region 6 Transportation Improvements Program. Working budgets for the STBG projects are created and monitored by Region 6 staff for review by the Transportation Committee. Projects in any of the annual elements can be moved from one year to another, and may be increased or decreased, depending on degree of need and project readiness as suggested by public comment and agreed upon by the Committee. The program is fiscally constrained, and there are sufficient funds in each year to complete the program, as outlined further in this document. (See Table 1, below, for STBG Funding Schedule.)

Public input opportunities are provided throughout the TIP development process. All committee meetings are open to the public.

Public Notices: All meeting announcements and agendas for the Region 6 Resource Partners Transportation Committee and Executive Board of Directors (policy committee) are sent to all committee members and other interested individuals and groups prior to the actual meeting date. Meeting agendas are also posted at the Region 6 Resource Partners Commission office.

Annual TIP Project Request Notifications: Region 6 Cities and Counties, members of the Committees, the Meskwaki Settlement, and other interested parties are informed when projects are being sought for inclusion in the annual Region 6 Transportation Improvements Program.

Public Comment: Prior to final Region 6 Transportation Improvements Program approval, the Region 6 Resource Partners Commission Board of Directors holds a public hearing on all the projects being considered for approval in the TIP. The public hearing meets the requirements noted in the Code of Iowa. No oral or written comments have been received during the preparation of this document.

PROJECT SELECTION PROCEDURES

Roadways across Region 6 are under the jurisdiction of Cities, Counties, and the Iowa Department of Transportation. Funding for the planning, engineering, construction and maintenance of these streets and highways is provided through federal, state, and local tax revenues and user fees including road use-motor fuel taxes, property taxes, special tax levies, and motor vehicle registration and drivers' license fees.

Each year Region 6 is designated to receive a portion of the Surface Transportation Block Grant (STBG) funds that are available from the State of Iowa for roadway improvements or nonroadway projects. STBG funds may be used on either the National Highway System (NHS) or Federal Aid eligible routes. The annual STBG fund target for Region 6 Resource Partners Commission, for 2023-2026, averages \$2,816,523 per year.

The STBG projects working budgets are created and monitored by Region 6 staff for review by the Transportation Committee from applications submitted by project sponsors. Projects are chosen by the Transportation Committee for recommendation to the Board to be included in the TIP. Funding for projects in any of the annual elements can be moved from one year to another. Projects recommended for funding are targeted to stay within the forecasted budget for each of the fiscal years in the 4-year plan. However, a small amount of funding may exceed or may be carried over from one fiscal year to another to accommodate a project, but the funding is constrained to fit within the range of the current TIP, ending with a positive balance. (See Table 1, below, for Funding Schedule.)

Year of Expenditure (YOE):

All projects are developed using Year of Expenditure cost estimates. Local project sponsors are responsible for accounting for YOE, using best estimates based on past experience and assumptions for future changes in construction costs considered at the time of estimate.

For the 2023-2026 expenditure and revenue projections –

- City: used FY 2021 actual financial data. 2% annual growth rate shown for all income and expense categories.
- County: used FY 2021 actual financial data, except used the average FY 22-25 bridge funding from the STIP, and the annual STPBG allocation to counties for the FY 23-26 STIP estimated target expenditures for Counties. Counties do not have a sub-allocation amount but somewhat of a historical target percentage.
- IDOT: use data provided from the IDOT.

STBG Funds:

The Region 6 Resource Partners Board of Directors determines where Region 6 STBG funds shall be expended. The Region 6 Transportation Committee recommends projects to the Region 6 Board.

Region 6 Resource Partners Commission annually takes applications for the STBG and TAP funds. All regional cities, counties, and the Sac & Fox Tribe are sent applications via email, and are encouraged to submit eligible applications.

Each applicant applies for their priority projects. Projects are chosen by Region 6 Resource Partners that comply with the Region 6 Resource Partners Transportation Plan and are recognized regional and local needs. The projects that are funded are on roads in poor condition or the investment is clearly needed for the other permitted STBG modes (e.g. public transit).

Application selection criteria include need and contribution to the transportation system. Applications are discussed and ranked by the Transportation Committee, which acts as the project selection committee for STBG and TAP projects. The Committee uses qualitative methods for ranking projects and recommends projects for funding following presentation and discussion.

The regional challenge is to maintain roads adequately – the worst condition roads are funded first. The region uses some target amounts for cities over 5000 people and counties, but these targets are not followed on an annual basis. All sizes of Cities and all places can receive funding. All types of projects, also, can receive funding.

Iowa's Transportation Alternatives Program Funds:

Region 6 Resource Partners has a slightly new application process for these funds. The process will proceed as follows:

- Region 6 will notify the IDOT, all cities and counties, the Sac & Fox Tribe, scenic byway groups, bicycle groups, and others who may have an in Iowa's TAP funding,
- Region 6 will provide applications to the IDOT for review and comment prior to our review.
- The Region 6 Transportation Committee will review the applications and the comments from the IDOT.
- The Region 6 Transportation Committee will make recommendations to the Region 6 Board of Directors.
- After the Region 6 Board approves the recommendations the applicants will be notified in writing about the status and timing of the award.

Region 6 Resource Partners Project Selection Members:

Region 6 (Policy) Board

GOVERNMENT REPRESENTATIVES

| NAME | GOVERNMENT | POSITION |
|----------------------------|----------------------|---|
| Dan Anderson | Tama County | Board of Supervisors |
| Lance Granzow | Hardin County | Board of Supervisors |
| Jason Roudabush | Poweshiek County | Board of Supervisors |
| Jody Anderson, Chair | City of Iowa Falls | City Administrator |
| Michelle Spohnheimer | City of Marshalltown | Housing & Community Development Dir. |
| Dave Thompson, Secty/Treas | Marshall County | Owner & Marshall County Board of Supervisors |
| Trudi Scott | City of Gladbrook | Mayor |
| Dan Agnew | City of Grinnell | Mayor |

NON-GOVERNMENT REPRESENTATIVES

Private Sector Representatives:

| NAME | COMPANY/ENTERPRISE | POSITION |
|---------------------------|------------------------------|----------------------------|
| Mark Schoborg, Vice-Chair | Self-Employed | Independent Business Owner |
| Roger Luehring | Clapsaddle-Garber Associates | Finance Manager |

Stakeholder Organization Representatives:

| NAME | ORGANIZATION | POSITION |
|----------------|--|--------------------|
| Mark Buschkamp | Iowa Falls Area Development Corporation (IFADC) | Executive Director |

Region 6 has a transportation advisory committee that operates under the Executive Board.

Transportation Committee

The purpose of the Transportation Committee is to plan and program the Surface Transportation Block Grant (STBG) and Iowa's TAP program funds for Region 6 counties. Three voting members from each of the four counties serve on the Committee. Peoplerides, the regional transit system operated by Region 6 Resource Partners, also has one vote. One of the two members from each county is the County Engineer. A second member is a city engineer or city administrator from a city with a population of over 5,000 people. The two non-voting (ex officio) members on this committee represent the State of Iowa Department of Transportation and the Marshalltown Municipal Transit, the only municipal transit system serving the Region.

| Transportation Committee | Name | Title | County, City or Agency Represented |
|-----------------------------|--------------------------------------|----------------------------------|---------------------------------------|
| Voting Member | Taylor Roll | County Engineer | Hardin County |
| Voting Member | Jody Anderson | City Administrator | City of Iowa Falls |
| Voting Member | Paul Geilenfeldt | County Engineer | Marshall County |
| Voting Member | Heather Thomas | City Public Works Director | City of Marshalltown |
| Voting Member | Lyle Brehm | County Engineer | Tama & Poweshiek Counties |
| Voting Member | Russ Behrens | City Administrator | City of Grinnell |
| Voting Member | Doug Ray Brian Sokol | Mayor of Tama Mayor of Toledo | Tama/Toledo urbanized area (1 vote) |
| Voting Member | Marty Wymore, Meeting Facilitator | Director | Region 6 Transit/Peoplerides |

| Non-Voting (ex officio) | Andy Loonan | IA DOT | State of Iowa |
|-------------------------|----------------|-------------------------------|-----------------------------------|
| Non-Voting (ex officio) | Kevin Pigors | Municipal Transit Director | Marshalltown Municipal Transit |
| Non-Voting (ex officio) | Rita Schoenman | Econ. Dev. Director | Meskwaki Tribe |

Region 6 Staff

Region 6 Resource Partners staff also plays a key role in developing effective regional strategies. Region 6 Resource Partners benefits from a creative and talented staff with extensive experience in transportation planning, regional transit operations, project management, and grant administration. Region 6 Resource Partners staff stays abreast of project challenges and new potential projects that are a good fit for the regional program.

Other Representation

The Meskwaki Settlement is included on our Region 6 Transportation Planning mailing lists. They are informed about meeting agendas and application deadlines. Periodically Region 6 Resource Partners staff consults with Meskwaki staff to discuss upcoming projects.

Public Transit:

The federal transit assistance funds for transit services in Region 6 (Peoplerides and Marshalltown Municipal Transit) come from two federal transit assistance programs – 5309 and 5311. The 5309 program is a federal program for capital projects. The 5309 will be the primary capital replacement program for Peoplerides transit. Region 6 may need to use local funds to replace some equipment. The 5311 funds are primarily for operating.

The Region 6 Board of Directors has final approval of all projects that are included in the Region 6 Transportation Improvements Program as well as being responsible for the day-to-day operations of the Commission.

OPERATIONS AND MAINTENANCE OF ROADS -- City

City

Cities with over 5,000 people in the urbanized area as defined by the US Census Bureau and the Federal Highway Administration are defined as urban. Urban means that they have more miles of roads that are eligible for Federal Highway Administration road funding. Those places for the 2023-2026 period that are defined as urban include – Grinnell, Marshalltown, and Iowa Falls. Tama-Toledo has slightly under 5,000 people in the urbanized area, even though the incorporated city population is over 5,000.

These 3 urban places have 79.61 miles of roads that are eligible for federal assistance and maintained by those places. The IDOT also has additional road miles in those jurisdictions that are eligible for federal assistance.

22.6% of miles are on the federal aid eligible routes. This mileage total for Cities is 95.4 miles. So the cost to maintain the federal aid system is about 22.6% of the costs in the tables below.

In the Region 6 Resource Partners area the targeted sum of funding for urban places is 22.33% of the \$2,816,523 annual surface transportation program. This is \$628,930 of annual funding for the eligible roads. The urban cities must use non-federal sources to maintain the 181.3 miles of local roads. This 22.33% percentage is a long term goal figure. The committee and board consider local individual place funding needs first. If a city, irregardless of size, has a funding need this percentage is not considered. This percentage may be significantly lower or higher with each program, in short. Currently, this overall percentage is significantly under that percentage, but that could change if individual place funding needs change.

The cost per mile to just resurface two lanes of eligible city & county federal routes was about \$376,000 in the FY 2021-2024 transportation improvement program. With recent bid numbers that cost is now estimated at \$490,000. If the only funding source for road resurfacing type projects was federal aid through the regional transportation program it would take 74 years (at current funding levels and the programmed cost per mile levels) to replace every mile of eligible urban road. This is several times longer than the life of those road miles. A road that is replaced in 2022 cannot last until 2096 to be replaced.

Federal aid revenues are about 1% of the anticipated funding share from 2023-2026. State funds represent 32% of the funding share. 67% of the road funding for Cities comes from local property tax funds. Over the past year, the federal funding percentage has reduced about 1%, the state funding percentage has decreased 10% since last year, and local funding has increased about 11%.

Federal funds are anticipated to increase by about 2% same over 2023-2026 years. Federal funds are from different motor fuel taxes. If fuel efficiency increases tax revenues decrease. The federal gas tax rate is not anticipated to increase.

Property tax levels have been estimated in the charts below to increase at 11%. Most places try not to increase tax rates. Some have some revenue increases through valuation growth. At some point in time, local places may increase the property tax paid debt service levy to bond for street improvements. Places only do that when the residents want better roads and there are no other options to pay for improvements.

Expenses shown in Chart B are kept at the same 2% increase level for the 2023-2026 range. The challenge for every place is to improve roads without funding increases.

Using the \$16.7 million in annual capital figures shown in Chart B and the \$490,000 average cost per mile there is enough annual funding to replace 34 miles of roads across the region.

Chart A

| City Revenue Type | 2023 | 2024 | 2025 | 2026 | То | tal |
|----------------------------|------------------|------------------|------------------|------------------|----|-------------|
| Road Use Tax Fund | \$ 12,027,343 | \$ 12,267,890 | \$ 12,513,248 | \$ 12,763,513 | \$ | 49,571,993 |
| Other Road Fund Receipts | \$ 16,284,134 | \$ 16,609,817 | \$ 16,942,013 | \$ 17,280,853 | \$ | 67,116,817 |
| Debt Service Fund Receipts | \$ 9,779,001 | \$ 9,974,581 | \$ 10,174,073 | \$ 10,377,554 | \$ | 40,305,209 |
| Total Revenues | \$ 38,090,478 | \$ 38,852,288 | \$ 39,629,333 | \$ 40,421,920 | \$ | 156,994,019 |

Chart B

| City Expense Type | 2023 | 2024 | 2025 | 2026 | | tal |
|---------------------------|------------------|------------------|------------------|------------------|----|-------------|
| Total Roadway Maintenance | \$ 5,349,522 | \$ 5,456,512 | \$ 5,565,643 | \$ 5,676,956 | \$ | 22,048,633 |
| Total Roadway Operations | \$ 16,053,549 | \$ 16,374,620 | \$ 16,702,112 | \$ 17,036,155 | \$ | 66,166,436 |
| Total Roadway Capital | \$ 16,687,407 | \$ 17,021,155 | \$ 17,361,578 | \$ 17,708,810 | \$ | 68,778,950 |
| Total Expenses | \$ 38,090,478 | \$ 38,852,288 | \$ 39,629,333 | \$ 40,421,920 | \$ | 156,994,019 |

Counties

Counties in Region 6 maintain 4,348 road miles. The federal aid eligible roads total 660.18 miles or 15% of the system miles. The non-eligible federal aid routes are generally the granular surface roads. All road miles need annual operations and maintenance expense. The annual regional operations and maintenance expense is about 74% of the road funding. For the charts listed in Chart C the expenses are estimated to increase about 2% every year.

33.8% of the County miles are on the federal aid network. The total federal aid miles total 1366 miles. The total county system miles are 4049.

Counties share similar funding challenges as cities. Property taxes are 27% of the road budget for Counties. Counties have not historically used the debt service levy as a method to pay for road and bridge improvements. That may need to change in the future. For this transportation improvement program no debt service levy funds from counties are included.

The estimated amount of annual county funds available for capital project is about \$8.8 million annually for the region. Bridge work comprises about 10% of that estimated total. The amount that is estimated to be available for regional road improvements is about \$35.1 million or \$8.7 million per year (farm to market, time 21, and regional funds).

The average cost per mile to resurface a county road in the 2021-2024 program is about \$674,000/mile. With recent inflation that cost is estimated at \$876,000/mile. This funding is sufficient to improve about 13 miles of roads every year. There are 660 miles of eligible federal aid miles across the region. With current funding levels it will take 51 years to replace each mile of pavement owned by counties. A road repaved in 2022 cannot be done again until 2073.

The regional county federal road funding for counties is 5% of the revenues. 64% of the county transportation budget is from state funds. Local property tax funds represent 31% of funding.

Chart C, Operations and Maintenance Expenses

| County Expense Type | 2023 | | 2024 | | 2025 | | 2026 | | То | tal |
|---------------------|------|------------|------|------------|------|------------|------|------------|----|-------------|
| Operations | \$ | 10,048,607 | \$ | 10,249,579 | \$ | 10,454,571 | \$ | 10,663,662 | \$ | 41,416,419 |
| Maintenance | \$ | 17,518,311 | \$ | 17,868,677 | \$ | 18,226,051 | \$ | 18,590,572 | \$ | 72,203,611 |
| Capital | \$ | 13,939,608 | \$ | 13,755,487 | \$ | 13,564,012 | \$ | 13,364,999 | \$ | 54,624,106 |
| Total Expenses | \$ | 41,506,526 | \$ | 41,873,744 | \$ | 42,244,634 | \$ | 42,619,232 | \$ | 168,244,136 |

Chart D, Sources and Uses of County Funds

| County Revenue Type | 2023 | 2024 | 2025 | 2026 | То | tal |
|---------------------------------|------------------|------------------|------------------|------------------|----|-------------|
| Property Tax (local) | \$ 10,213,512 | \$ 10,315,647 | \$ 10,418,804 | \$ 10,522,992 | \$ | 41,470,954 |
| LOST - Marshall County (local) | \$ 801,518 | \$ 809,533 | \$ 817,629 | \$ 825,805 | \$ | 3,254,484 |
| LOST - Poweshiek County (local) | \$ 300,000 | \$ 303,000 | \$ 306,030 | \$ 309,090 | \$ | 1,218,120 |
| Road Use Tax (state) | \$ 17,770,003 | \$ 17,947,703 | \$ 18,127,180 | \$ 18,308,452 | \$ | 72,153,338 |
| Farm to Market (state) | \$ 5,307,933 | \$ 5,361,012 | \$ 5,414,622 | \$ 5,468,769 | \$ | 21,552,336 |
| Time-21 (state) | \$ 2,328,808 | \$ 2,352,096 | \$ 2,375,617 | \$ 2,399,373 | \$ | 9,455,894 |
| Bridge (federal) | \$ 3,000,000 | \$ 3,000,000 | \$ 3,000,000 | \$ 3,000,000 | \$ | 12,000,000 |
| Misc - STPG | \$ 1,784,752 | \$ 1,784,752 | \$ 1,784,752 | \$ 1,784,752 | \$ | 7,139,008 |
| Total Revenues | \$ 41,506,526 | \$ 41,873,744 | \$ 42,244,634 | \$ 42,619,232 | \$ | 168,244,136 |

IDOT

The estimated amount that is available for Right of Way and Construction work is \$854.5 million to 857.90 million in the FY 2023 to 2026 time period.

| Dollars in millions | | | | | | | | |

PUBLIC TRANSIT FINANCIAL CAPACITY ANALYSIS & TRANSIT CAPITAL

The City of Marshalltown has replaced all the regular fixed route and paratransit vehicles recently. The capital needs are met for several years. They will still need operating assistance for the fixed and paratransit services.

Region 6 Resource Partners – Peoplerides has successfully replaced many vehicles over the past 3-4 years. The current vehicle replacement involves replacing 1-2 vehicles per year. Since federal replacement funding is not always available the timelines can be extended.

The pandemic has provided a much needed influx revenue to the Peoplerides program. The additional revenue has helped the system at least break even for FY 21-22. The Region 6 Board has

agreed to cover operating losses with the program in FY 2023, with hopes of finding a solution for services starting in FY 2024. The estimated FY 2024 deficit is about \$209,000. Some driver hour reductions, rate increases, and local funding is needed to cover the gap. The program cannot continue long term with those type of funding deficits.

PUBLIC INVOLVEMENT PROCESS

Transportation Improvement Program (TIP):

Public Notice: Prior to approval of the annual Transportation Improvement Program, Region 6 Resource Partners Commission Board of Directors holds a public hearing on the TIP. The public hearing is held prior to the date the TIP is due to the IDOT. The public hearing notice complies with the Iowa Code publication requirements – the public hearing notice is published at least 4 but not more than 20 days prior to the public hearing. The public hearing notice is published in the Marshalltown Times Republican. The public hearing notice will also be posted at the Region 6 Resource Partners Commission offices. Press releases shall also be provided concurrently to Marshalltown Times Republican, Iowa Falls Times Citizen, Eldora Herald Register, Ackley World Journal, KDAO, KIFG, KFJB, KGRN, Mid-Iowa Enterprise, Toledo Chronicle, Tama News Herald, Traer Star Clipper, Montezuma Record, Grinnell Herald Register, and South Hardin Signal Review. The press releases will be provided via email. The TIP will be available for review at the Region 6 Resource Partners Commission office, online at www.region6resources.org, and Region 6 Resource Partners Commission will copy and mail the document upon request.

All public comments received on the draft TIP shall be included in the final TIP.

Application: Annually, Region 6 Resource Partners will accept applications for the Region 6 Surface Transportation Block Grant (STBG) Application instructions and forms are provided to Region 6 Cities and Counties, County Engineers, City Engineers, IDOT, Meskwaki Settlement, Economic/Community Development/Betterment Groups, and others interested in regional transportation funding.

Public Involvement Procedures: The public participation procedures are updated on an as needed basis. Any amendments will be approved by the Region 6 Board of Directors. Region 6 Resource Partners Commission Board of Directors will publish a notice in the Marshalltown Times Republican to notify the public that the public involvement process will be amended. This notice shall be published at least 45 days prior to approval action by the Region 6 Board of Directors.

Transportation Committee and Region 6 Board of Directors Meeting Notices: These meeting notices are subject to Iowa Open Meetings law. The agendas are posted at the Region 6 Resource Partners Offices, mailed/emailed to committee members, and mailed to other interested groups. The meeting notice/agenda is also mailed in press release format to the Marshalltown Times Republican, Iowa Falls Times Citizen, Eldora Herald Register, Ackley World Journal,

KDAO, KIFG, KFJB, KGRN, Mid-Iowa Enterprise, Toledo Chronicle, Tama News Herald, Traer Star Clipper, Montezuma Republican, Grinnell Herald Register, Poweshiek County CR, and South Hardin Signal Review. These notices are mailed, faxed, or emailed at least 4 days, but not more than 20 days prior to the meeting.

PROCEDURES FOR REVISING THE TIP AND STIP

SWAP Project Changes: any amendment or revision shall be approved by Region 6 Resource Partners staff. The public hearing shall meet the Code of Iowa requirements. After the public hearing the board shall consider whether to approve the revision.

Non-SWAP Project Amendments: Any new project, a significant change in the scope of work, or a significant change in the requested federal funding, are considered amendments. The amendments must be approved by the Region 6 Resource Partners Board of Directors. The Region 6 Board of Directors will hold a public hearing on these amended projects at a regularly scheduled meeting. The approval procedure for an amendment will be the same as the approval procedure for the annual document, which is outlined above.

An amendment is a revision to a TIP that involves a major change to a project included in the TIP/STIP or the creation of a new project. This includes an addition or deletion of a project or a major change in project cost, project/project phase initiation dates, or a major change in design concept or scope (see below). Changes to projects that are included only for illustrative purposes do not require an amendment. An amendment requires approval by the Region 6 technical and policy boards and must follow the Region 6 public participation process of public review and comment. When the TIP is amended, Region 6 Resource Partners Commission must redemonstrate fiscal constraint of the TIP. If a revenue source is subsequently removed or substantially reduced (i.e., by legislative or administrative actions), the original determination of fiscal constraint will not be withdrawn. Changes that affect fiscal constraint must take place by amendment of the TIP.

Any proposed changes that meet any of the following criteria are considered amendments.

Project cost: Projects in which the recalculated project costs increase federal aid by more than 30 percent or increase total federal aid by more than \$2 million from the original amount.

Schedule changes: Projects added or deleted from the TIP.

Funding sources: Adding an additional federal funding source.

Scope changes: Changing the project termini, project alignment, the amount of through traffic lanes, type of work from an overlay to reconstruction, or a change to include widening of the roadway.

Amendment process

For locally sponsored projects, the planning agency conducts its amendment process that includes both public comment period and board approval. Upon completion of the public comment period and inclusion to the local TIP, the amendment will be approved by the Iowa DOT. Following approval of the Iowa DOT, the amendment is eligible for FHWA approval.

When adding an Iowa DOT-sponsored project the amendment process begins with presenting the proposed new project to the Iowa Transportation Commission. If approved these projects are added to the Five Year Program and then published to the Iowa DOT website for a minimum 14-day public comment period. For an Iowa DOT amendment in an RPA an attempt will be made to submit amendments to the applicable RPA to go through the local amendment process. Once completed at the local level, the amendment is eligible for FHWA approval. However, if necessary, Iowa DOT amendments in an RPA may be approved at the statewide level to facilitate letting/authorization. Revisions are defined as changes to a TIP or STIP that occur between scheduled periodic updates. There are two types of changes that occur under the umbrella of revision. The first is a major revision or "Amendment." The second is a minor revision or "Administrative Modification." The following

definitions and thresholds are considered for determining an amendment versus an administrative modification.

<u>Minor Changes</u>: Any minor TIP changes can be approved by the Region 6 Resource Partners Commission Board of Directors without a public hearing. These include moving a project from one fiscal year to another, or adjusting the total project costs.

Non-SWAP Projects Administrative Modification: An administrative modification is a revision making a minor change to a project in the TIP. An administrative modification does not require public review and comment, re-demonstration of fiscal constraint, or a conformity determination (in nonattainment and maintenance areas). An administrative modification can include minor changes to project costs and project or project phase initiation dates. Any proposed changes that meet any of the following criteria are considered administrative modifications.

Project cost: Projects in which the recalculated project costs do not increase federal aid by more than 30 percent or do not increase total federal aid by more than \$2 million from the original amount. **Schedule changes:** Changes in schedules to projects included in the first four years of the TIP.

Funding sources: Changing funding from one source to another.

Scope changes: All changes to a project's scope require an amendment.

Projects in any of the first four years of the TIP may be advanced in place of another project in the first four years of the TIP, subject to the Region 6 Resource Partners Commission selection requirements, and this change is considered an administrative modification unless the TIP does not remain fiscally constrained. In addition, any changes to projects included in the TIP for illustrative purposes may be processed via an administrative modification. This includes adding a project for NEPA/IRJ determination purposes.

Administrative modification process

Administrative modifications have simplified procedures that allow more flexibility in processing changes. Region 6 Resource Partners Commission may make minor changes administratively by seeking board approval, or if the process is documented and approved by the appropriate technical and policy boards. Public participation procedures are not required for administrative modifications for either locally or Iowa DOT-sponsored projects.

<u>Illustrative Projects</u>: The revision process for Illustrative projects is dependent upon whether or not the project is regionally significant. Regional significance can generally be thought of as whether or not the project adds capacity or changes access. Illustrative projects that are found to be regionally significant must be revised via the amendment process. An administrative modification can be processed for projects that are not regionally significant.

FISCAL CONSTRAINT PROCEDURES – Highway Section

As an integral part of the transportation planning process, budgets for each of the funding sources are monitored by Region 6 staff. In order to keep project approval within the limits of funding availability, projects and program budgets are submitted to the respective committees for their review and approval. During the course of the year, projects can be moved forward or back within the plan, and may be increased or decreased, depending on degree of need and project readiness as suggested by public comment and agreed upon by the committee. This fluidity allows project sponsors to have considerable input on how the available funds will be expended. (See table 1 below for STBG

Funding Schedule. The projects listed in the table constitute the awarding of regional STBG funding. IDOT projects are only listed where regional funding has been awarded.)

FISCAL CONSTRAINT PROCEDURES – Bridge Section

County level targets are provided to counties by the Office of Local Systems. Using these targets, bridge projects are submitted by counties for inclusion into the TIP only if reasonably expected to be obligated during the year. The Office of Local Systems will perform statewide Bridge Program constraint analysis to determine if the county bridge program is within acceptable limits on both a total and a year-by-year basis. If adjustments are necessary, counties that are over-programmed will be required to adjust their bridge program until fiscal constraint of the bridge program is achieved. After the STIP has been approved by FHWA, counties may make changes to their bridge program using the existing procedures for TIP revisions. (No table demonstrating fiscal constraint of bridge projects is included in this document.)

NATIONAL ENVIRONMENTAL POLICY ACT (NEPA) project programming

The regional significance of a project plays an important role in determining whether the project needs to be included in the TIP. Regional significance can be defined as a transportation project on a facility that serves regional transportation needs and would normally be included in the modeling of the area's transportation network. All projects found to be regionally significant, regardless of whether or not the projects have federal-aid funding programmed, are required to be included in the TIP.

Specific programming requirements exist for projects covered under NEPA. Unique scenarios with unique programming implications include: Where a single regionally significant project is located within the RPA boundary, all costs associated with the phases that are within the TIP timeframe must be included in the fiscally constrained TIP. Regionally significant projects within an RPA must be consistent with the goals and objectives of the statewide LRTP.

The project needs to be programmed both I the year federal funds are to be obligated and the year FHWA approval is requested, even though no additional funds are being programmed. Projects seeking NEPA approval are also required to be programmed in the year approval will be sought, even if no funds are to be authorized. For these projects, all project costs anticipated to be incurred during the four years of the STIP need to be programmed.

PROJECT CONSISTENCY WITH LONG RANGE TRANSPORTATION PLAN

Projects are consistent with the planning goals of the Region's Long Range Transportation Plan. All projects are generally maintenance-related projects that support the goals and objectives outlined in the region's LRTP. Policy goals are found on pages 12 and 13 of the LRTP. Listed below are the goals pertaining to public transit specifically.

Goal 1: Provide an efficient, multimodal transportation system to promote connectivity and mobility.

Objective 1.1: Affordability

Provide convenient, affordable transportation throughout the region.

Objective 1.2: Mobility

Support accessible transportation modes for individual and commercial needs.

Objective 1.3: Public Health

Support active, healthy, and safe transportation options including recreational trails and multimodal roadways.

Goal 4: Provide an inclusive, accessible, and equitable transportation system

Objective 4.1: Transit access

Support transportation investments that improve public transit services for low income and transit dependent populations to increase access to goods and services that improve quality of life.

Objective 4.2: Transportation equity

Identify the needs of low income and minority populations and develop strategies to ensure that transportation projects do not disproportionally burden low income and minority populations and produce procedures that avoid or mitigate adverse impacts.

Objective 4.3: Public Participation

Provide open, inclusive opportunities for public input and develop outreach strategies that encourage citizens of all socio-economic demographics to participate, with a focus on low-income and minority populations.

Goal 5: Enhance sustainability of the region. Objective 5.1:

Enhance Economic Sustainability

Provide transportation services that promote local and regional economic growth and support transit programs that improve access to employment and education.

Objective 5.2: Improve Environmental Sustainability

Support transportation projects and programs that minimize impacts to natural resources, reduce greenhouse gas emissions, and reduce pollutants that adversely impact soil and water quality.

Objective 5.3: Efficiency

Develop evaluation strategy and implement programs that maximize the efficiency of economic resources.
